PROFESSIONAL SUMMARY

Full Stack Web Developer focused on building responsive web applications with Next.js, Node.js, Express.js and MongoDB. Built individual full-stack projects including a complete e-commerce platform and a role-based cafe management system. Looking for internship or junior developer opportunities where I can contribute to frontend and backend development while working on real products.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS, Bootstrap | **Backend:** Node.js, Express.js | **Database:** MongoDB | **Version Control:** Git

PROJECTS

Nestro E-commerce | August 2026 | Individual Project

Tech: Next.js, Node.js, Express.js, MongoDB, Tailwind CSS | Live Demo | GitHub

- Built an end-to-end e-commerce application with authentication, product browsing, search and filtering, cart, wishlist, checkout, orders and admin management.
- Implemented COD and Razorpay payment flows, user profile/address management and responsive interfaces for mobile, tablet and desktop.
- Used Express.js APIs and MongoDB to manage users, products, carts, orders and store data across the application.

Cafe Management System | September 2026 | Individual Project

Tech: Next.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Built a full-stack cafe management application with role-based access for Admin, Waiter and Kitchen/Cook users.
- Implemented permission-based access so each user role can work with the parts of the system required for its responsibilities.
- Developed responsive frontend screens and backend APIs with MongoDB for application data and access-controlled workflows.
